

Installation Instructions

1. Stretch top 1/2 of the TireSocks over each tire. The TireSocks should only stretch over the back side of the tire by 1-2 inches.
2. Turn the machine ON and drive forward to rotate tires 180 degrees.
3. Stretch the other 1/2 of each TireSock over tires to complete installation.

NOTES

- To remove, pull the top section of the TireSock completely off each tire and drive the machine forward.
- Ensure no part of red center is overlapping tire tread. Do not drive on seam.
- TireSocks are designed for use on interior projects and flat level surfaces.
- TireSocks will last longer if the machine is always in motion while turning and not used on wet, rough, or exterior concrete.
